WHY MR. SPOFFORD RETIRED.

Following is the text of the letter written

To the President: The office of librarian of Congress is shortly to be filled by executive appointment, under provisions of the egislative act of February 19, 1897. As the name of the present inclimbent has been widely suggested for reappointment, and, perhaps, urged by members of Congress, though not by the librarian, I desire to lay before you some reasons why I should pre-fer not to be considered a candidate.

The duties devolved upon me, onerous as they already are, are to be largely extended upon removal to the new library building.

This extension of labor divolves the selection and organization of a greatly increased force of library assistants, the removal of the entire collections of the library from their present quarters, their rearrangement and classification in the new building, the undertaking of a new and complete printed catalogue of subjects, the increase of the library by extensive selections of books to repair its deficiencies, the final supervision of the business of the register and copyrights, and the daily conduct and care of the entire library administration.
